Dear Mr. Weisberg,

This second letter comes to you, because I want to continue a line of thinking; of the thoughts crowding my mind at the moment:

According to Pat Michaels KRON-TV, [illegible] minor investigation of the death of Senator Robert F. Kennedy. He considers the source reliable and trustworthy. The woman, whom he insists unidentified, worked on the [illegible] floor of the Ambassador hotel the night of the murder as a secretary for the Convention headquarters. This was a young girl that night. She claims two men [illegible] the pantry area seconds after the shots were fired and tried to blend with the crowd. They seemed nervous and agitated, and looked suspicious. I have written to Michaels and received no answer from him. But he did mention all this on T.V., on his show, Channel 2, Oakland.

I have found an article entitled Assignment Kill Robert Kennedy by Norman Mailer, in Sept '67 Playboy magazine, in which a Baton Rouge lawyer, Jim Garrison, charges Hoffa wanted Robert Kennedy dead and that a "Mob Contract" style killing was put out on the Senator under orders against Hoffa, according to the article.

Yours,
Deborah Blakey
